June 1, 2008

THANKS FOR YOUR PRAYER'S AND SUPPORT FOR THE SPURLIN FAMILY IN A TIME OF NEED.

Dear brothers and sisters in Christ,

Bob regrets that he is unable to speak to you directly. For thirty years this family has dedicated themselves to the Lord's church. The Spurlins doing local work with congregations in five states before his disability in 1995 was gratifying. Yet, he continued, though bedfast, to remain productive in his work of writing. He has also produced two videos to edify the cause of Christ. The materials provided will hopefully accomplish two things: (1) **bringing encouragement and strength to many suffering with the trials of life**, (2) it will **allow the Spurlin family to maintain a level of independence in taking care of their medical and related expenses**. I hope the leadership will give serious consideration to this current project. During the past twelve years Bob has written three books: "Tackling Life's Troubles," "DIAL 911," and "Don't Ever Give Up." Many have benefitted from the written material and we believe **many more can benefit from the video material as they see and hear from a man who personally copes with life's trials daily**. A picture is worth a thousand words. It is professionally recorded and has been viewed by congregations on Sunday and Wednesday night services, Bible classes, Nursing homes, and by individuals. Every congregation and every member has a loved one or friend who can be blessed by Bob's books and the two DVD.

**HEALTH UPDATE** - Bob has increased pain in recent months. As some of you are aware, there have been additional health concerns. With the increase in pain medication and other related problems Bob is not able to do what he has done in the past. For this reason I and others have stepped in to promote the continued use of his materials. Soon after the taping of the last DVD in late 2007, Bob's health began to deteriorate and forced him to cut back. We are grateful that God blessed Bob with the strength to complete the project because it is a master piece. Maybe his best work. With the latest health problems there have been additional expenses incurred for equipment, treatment, and hospital visits. Bob and his loving caregiver, Beverly, always meet their challenges day by day with a "never give up" attitude (Gal. 6:9).

**LET BOB SPEAK BY DVD TO YOU AND YOUR LOVED ONES FROM HIS HOSPITAL BED. Are you prepared to minister to a person who has just learned they have a debilitating disease, to a shut in who is discouraged or one who has just lost a child or mate? Ever wondered what to say to one who is bedfast and how to say it? Bob is uniquely qualified to say what needs to be said to encourage and edify. Let Bob say it for you by DVD.**

**VIDEO PROJECT** - The new video represents a special lecture delivered from Bob's hospital bed. It was shown at this year's Memphis School of Preaching Lectureship. The subject assigned was "Don't Ever Give Up." This special lesson is now available on DVD and sells for \$10.00. We are offering a \$50.00 discount price for a case of videos (30 copies) at \$250.00 (this price includes all shipping charges). **Orders and payment are to be sent to Bob Spurlin family, 2101 Glenwood Drive, Hartselle, AL 35640. E-mail [prechteach@aol.com](mailto:prechteach@aol.com) or phone: (256) 773-0295.**

I was fortunate to be in the assembly when the video was shown at Memphis. It was a highlight of this year's lectureship. This lesson will inspire, encourage, and motivate people of all ages to be zealous for the Lord; in whatever circumstances they meet in life. As you are making the decision regarding a possible purchase, please remember that **all profits** will go to Bob's special medical account. The purchase of this video will enable you to assist your local church family and the current needs of brother Bob Spurlin.

In brotherly love, Stanley Ryan for the Spurlin family
